Vasisth Pandya

Software Engineer

SUMMARY

I am a passionate software developer with over 2 years of industry experience specializing in building mobile and web applications. In my role, I focus on writing and styling front-end components to meet mockup requirements and fulfill user stories. Additionally, I excel in integrating APIs and implementing business logic using JavaScript and TypeScript.

EXPERIENCE

Software Engineer   Apr 2022 – Present

Sadhrasya Softtech PVT LTD, Vadodara, Gujarat

Proficient in Mobile Application Development: Expertise in developing mobile applications using Ionic and Angular frameworks, with a specialization in UI development and API integration.

Angular Projects and CI/CD Pipelines: Skilled in setting up Angular projects and implementing Continuous Integration/Continuous Deployment (CI/CD) pipelines to automate environment and code deployment processes.

Comprehensive Platform Development: Demonstrated expertise in project management and development for a comprehensive platform resembling Zomato, encompassing multiple web portals and a mobile application. Spearheaded the creation of the onboarding portal and contributed to the enhancement of various features across different portals, including:

- Menu management
- Real-time chat functionality using PubNub
- Seamless payment integration utilizing Stripe Payment

Business Portal Development: Contributed to the development efforts for a business portal managing data from IoT devices, with a focus on:

- Dashboard creation
- Authentication operations using Angular

Online Delivery Platform: Instrumental in building an online delivery platform, specializing in:

- Route integration utilizing HERE Map services
- Implementing additional driver-centric features based on HERE Map services

Training - Frontend Developer   Mar 2022 - Apr 2022

Jetbro, Ahmadabad, Gujarat

Developed responsive web pages utilizing advanced CSS techniques, including grid systems like CSS Grid, to ensure optimal layout and presentation.

Translated designs from Figma and Photoshop into functional web pages, maintaining fidelity to the original designs while ensuring responsiveness across various devices.

Freelance 3D Visualizer /Designer   Mar 2021 - Mar 2022

Worked as a 3D designer on various freelance projects with 3DS Max, Photoshop.

Freelance 3D Designer   Sep 2020 - Feb 2021

Worked for Packman Bespoke Gifting , Created bespoke 3D designs tailored to client specifications, ensuring alignment with their vision and requirements.
